## SUMMARY

I'm a proactive CSE student with strong problem-solving and time management skills. I learn quickly, adapt well, and enjoy contributing to projects that help me grow technically and professionally.

## EDUCATION

|                                                                                  |                                            |
|----------------------------------------------------------------------------------|--------------------------------------------|
| <b>B.tech /Computer Science</b><br><i>GM University</i>                          | Aug 2023 – Present<br><i>CGPA: 8.53</i>    |
| <b>Pre-University Course (PUC / 12th)</b><br><i>Benakatti PU Science College</i> | Jun 2021 – May 2023<br><i>CGPA: 83.33%</i> |
| <b>SSLC / 10th Grade</b><br><i>Snehit Siddaganga City Central High School</i>    | <i>CGPA: 89.60%</i>                        |

## PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------|
| <b>Plant Diseases Detection (Deep Learning)</b> <a href="#">[View Project]</a><br><i>Tech: Python, TensorFlow/ Keras, CNN, OpenCV</i> <ul style="list-style-type: none"><li>Developed a CNN model to identify plant diseases from leaf images.</li><li>Applied image preprocessing and data augmentation techniques to improve model performance.</li></ul>                                                                                                                                        | Oct 2025 – Dec 2026 |
| <b>Quantum-Resilient Adaptive Hybrid Cryptographic Framework</b> <a href="#">[View Project]</a><br><i>Tech: Python, Crystals-kyber, AES, RSA</i> <ul style="list-style-type: none"><li>Designed and developed a secure communication framework integrating AES, RSA, and CRYSTALS-Kyber cryptographic algorithms. Implemented adaptive encryption selection based on message risk levels and incorporated quantum-resistant security mechanisms to enhance future-proof data protection.</li></ul> | Mar 2026 – Jun 2026 |
| <b>SOPify – Enterprise AI Writing &amp; Documentation Assistant</b> <a href="#">[View Project]</a><br><i>Tech: React.js, JavaScript, Supabase, PostgreSQL, Generative AI / LLM APIs, Embeddings, REST APIs</i> <ul style="list-style-type: none"><li>Built a context-aware GenAI web application that automates enterprise document generation using stored organizational knowledge, embeddings, and AI APIs to create structured and consistent SOPs efficiently.</li></ul>                      | Jan 2026 – Feb 2026 |

## TECHNICAL SKILLS

**Programming :** Python · Java · SQL · C  
**Web Development :** HTML · CSS3 · Flask · Django · REST APIs · Javascript  
**Tools:** Git · GItHub · Google Colab · OpenCV · AWS  
**Soft Skills:** Problem Solving · Teamwork · Leadership · Time Management  
**Languages:** English · Kannada · Hindi
